EDUCATION

John Jay College of Criminal Justice, New York, NY
Bachelor of Science in Computer Science & Information Security
Expected Graduation: May 2027

Rensselaer Polytechnic Institute, Troy, NY
Computer Science (Completed Two Years)

TECHNICAL SKILLS

- **Languages:** Python, C++, HTML/CSS, JavaScript
 - **Tools:** Visual Studio Code, Git, Command Line
 - **Concepts:** Object-Oriented Programming, Networking Fundamentals, Client-Server Architecture, Socket Programming
 - **Additional Skills:** Customer Service, Team Collaboration, Leadership, Communication
-

EXPERIENCE

Jace Solutions, New York, NY

Smart Hands Technician | May 2026 – Present

- Provided on-site technical support for hardware, network, and infrastructure-related tasks.
- Assisted with equipment installation, troubleshooting, cable management, and device maintenance.
- Worked with clients and remote engineering teams to resolve technical issues efficiently.

Gerald W Lynch Theater, John Jay College

College Assistant/Usher | May 2026 – Present

- Assisted patrons during theater events and ensured a professional guest experience.
- Supported event operations, crowd management, and venue safety procedures.
- Collaborated with theater staff to prepare and manage performances and special events.

Riis Settlement, Astoria, NY

Group Leader | July 2024 – August 2024

- Facilitated classroom learning and organized engaging activities for groups of students
- Supervised and ensured the safety of children during daily activities and field trips
- Fostered a positive and inclusive learning environment, encouraging creativity and teamwork

Burlington Coat Factory, Brooklyn, NY

Cashier | June 2024 – July 2024

- Delivered fast, accurate, and friendly checkout experiences in a high-volume retail environment
- Managed cash, credit, and return transactions with attention to detail and store policies
- Assisted with merchandise organization and collaborated with team members to maintain store efficiency

LA Fitness, Yonkers, NY

Daycare Worker | June 2023 – August 2023

- Supervised and engaged children ranging from infants to 12 years old in a safe environment
 - Maintained accurate sign-in and sign-out procedures for parents and guardians
 - Created a supportive and engaging space for children's development and interaction
-

TECHNICAL PROJECTS

- **Mock Uber Application (C++, Terminal-Based):** Developed a ride-sharing simulation implementing request handling and matching logic using object-oriented design
 - **Mock Spotify Application (C++, Terminal-Based):** Built a music streaming prototype supporting playlist creation and song management via command-line interface
 - **Mock Google Search Engine (C++, Terminal-Based):** Created a basic indexing and retrieval system capable of processing structured search queries
 - **Persistent Server & Client Application:** Implemented a socket-based system enabling continuous real-time communication between server and client
-

RELEVANT COURSEWORK

Advanced Data Structures | Object-Oriented Programming | Computer Architecture
Operating Systems | Computer Networking | Cryptography & Cryptanalysis

CERTIFICATIONS

- Ethical Hacking Essentials – edX
-

ADDITIONAL INFORMATION

- Demonstrated leadership by training and mentoring peers in team-based environments from AFROTC
- Strong ability to manage multiple responsibilities while maintaining professionalism and accuracy
- Adaptable and quick learner with interest in both technical and people-focused roles
